

TWO KILLED, ONE HURT IN AUTO ACCIDENTS

Japs Accept Harding Bid

JAPAN OMITTS REFERENCE TO EAST PROBLEM

Officials Puzzled by Orientals' Acceptance of Disarmament Invitation.

5 NATIONS HAVE ACCEPTED

China Signifies Willingness to Discuss World Problems in the Pacific.

By United Press Leased Wire Washington.—The state department today was notified of Japan's acceptance of the invitation to a disarmament conference.

The Japanese communication, however, omitted any reference to a discussion of problems in the Pacific, which was also included in the tentative invitation sent out last Saturday.

It was stated on high authority that Japan's failure to include the Pacific questions in her acceptance was not necessarily regarded as an expression of disapproval of the American proposal.

It was added, however, that the Japanese government would have to agree beforehand to include Pacific problems before any practical results of disarmament would have to be based on an amicable settlement in the Pacific.

Officials were plainly perplexed by the Japanese answer and it was assumed that no formal invitation naming a date for the conference will be prepared until the Japanese attitude is cleared up.

The possibility of Japan making some such answer had been foreseen and discussed here, but it was believed that she would finally accept unreservedly.

Formal notification that China would partake in the conference also was received today. All the five nations which received the American query as to whether invitation to a conference would be welcomed have now replied with an unconditional affirmative except Japan.

China's notification of her willingness to participate in the conference included a statement that she would welcome discussions of the Far Eastern problems.

The United States will offer no objection to the participation of Belgium and the Netherlands in discussion of problems touching the Pacific, it was said. It is recognized that these two countries have a stake in the East, and the conference is intended to be a full expression of the views of the interested nations in definitely settling the Pacific question.

No formal request was made by these two countries to come into the conference, however.

BLAINE KILLS BILL TO BUY STATE PARKS

By United Press Leased Wire Madison, Wis.—Declaring that the "initial cost" of \$350,000 to purchase the Northern Lakes, Dells, and Rock river proposed state park, would be only a small part of the final cost, and that the ultimate cost would fall heavily on the tax payer, Governor John J. Blaine today vetoed the three measures which provided for the purchase of the parks.

The Peterson "Independent city school board" measure was also vetoed, the governor's disapproval message declaring that a "joker" in a subsection of the new statute created by it would make a referendum on it ineffectual.

The governor also vetoed a bill which would allow the industrial commission to adopt an experience rating table, giving employers with a favorable accident experience a lower rate on their compensation experience.

KENOSHA MAN GUILTY OF MANN ACT VIOLATION

Chicago.—Henry Rosso, Kenosha, Wis., was found guilty of violating the Mann act in Judge Landis' federal court here today. A jury declared him guilty after hearing testimony of Edna Williams that she had been brought here by Rosso and placed in a south side resort, where she turned half her earnings over to him. Mrs. Marie Batzlik, also testified that she was formerly an inmate of Rosso's home in Kenosha and gave him half or what she earned. Rosso will be sentenced later.

STATE HOSPITAL IS TO BE AT GOVERNOR'S ISLAND

By United Press Leased Wire Madison, Wis.—Governor's Island, near Madison, will probably be selected as the site for the new state \$250,000 hospital for shell shocked soldiers, it was learned this morning.

A ruling of the attorney general's office written at the request of Gov. John J. Blaine, declared that under the wording of the law, as passed by the recent legislature, only state owned property could be used as the location site.

This eliminates other sites under consideration. The committee is expected to announce the site next week.

PACKERS LOSE FIGHT TO CUT WAGES OF EMPLOYEES

By United Press Leased Wire Chicago.—Sixty-five thousand stockyard workers over the country won a victory when Judge Samuel Alschuler, arbitrator, refused the request of the five big packers to reduce pay 5 cents an hour.

Judge Alschuler ruled that the cost of living had not sufficiently declined to warrant the cut.

He gave the packers a concession, however, when he ruled the men could be worked one hour overtime three days a week and be paid straight time instead of time and a half.

DRY RAID NETS 2 STILL AND MUCH WHISKY

John Power, Buchanan, Sought as Alleged Owner of Illicit Outfit.

Two complete stills, 30 gallons of moonshine whisky and 125 gallons of mash were confiscated by federal prohibition officers in one of the largest raids ever made in this locality Wednesday evening at the farm of Patrick Rohan, town of Buchanan. Mr. Rohan was not held by the officers, but a warrant has been issued for the arrest of John Power, presumed to be the owner of the illicit outfit.

A small slaughter house, some distance from the Rohan home and on the other side of the road from his place housed the whisky-making outfit. The officers went to the place Wednesday evening accompanied by Sheriff P. G. Schwartz and found no one there, but took possession of the equipment and the liquor. The outfit consisted of one 50-gallon copper cooker, one 25-gallon cooker, two colls, two coolers, two oil stoves, thirty gallons of whisky, 125 gallons of mash and ten empty jugs.

Returning for further investigation Thursday morning, the officers found that Mr. Rohan had nothing to do with the affair and knew nothing of the existence of the still. The slaughter house had not been used for sometime and was vacant, so far as Mr. Rohan was aware. Letters and other articles found in the building bore the name of John Power, and the officers are working on the assumption that he is owner and operator of the outfit. He had not been located Thursday afternoon.

War Munitions Makers Work For Disarmament

IRISH ARE PLEASED WITH PEACE PARLEY

DeValera and Lloyd George Open Negotiations to End Irish Warfare.

By United Press Leased Wire London.—The first session in the Irish peace negotiations Thursday afternoon was "completely satisfactory," to the Sinn Fein representatives, it was stated at the conclusion of the conference.

Edmond De Valera and Premier Lloyd George conferred alone at 10 Downing street for two hours and 45 minutes, completing their conversations at 7:15 p. m.

"The conference was completely satisfactory from our view point," declared Arthur O'Brien, who accompanied DeValera although he did not participate in the negotiations.

The conference will be resumed Friday morning.

Thousands of troops were arriving here today on leave from Ireland, indicating that the government has no fear of a quick breakdown of the proceedings.

COUNTERFEIT PLOT UNEARTHED IN STATE

By United Press Leased Wire Milwaukee, Wis.—A gigantic counterfeit plot by which the country was being flooded with thousands of bogus half dollars, was uncovered here Thursday, officials alleged, with the arrest of four persons, including one young woman.

Moulds and an entire counterfeiters' equipment was seized in a raid made by police directed by Lieut. Harry Ridenour.

Three of the four arrested, including the woman, are said to have made confessions. Police refused to make public the names of those held or the details of the raid until the entire gang is rounded up the officers said.

The counterfeiters were operating within the shadow of the west side police station.

BLAME MINERS' UNION FOR MINE FIELD TROUBLE

By United Press Leased Wire Washington.—Responsibility for "all the trouble, violence and murder" in the Mingo coal fields was laid at the door of the United Mine Workers by Colonel Z. Taylor Vinson of Huntington, W. Va., attorney for the mine owners, testifying today before the senate labor committee.

"We emphatically assert," Vinson declared, "that all of the trouble that has occurred has been directly caused by the criminal practices of the United Mine Workers. For years past it has pursued a criminal policy and is attempting by means decidedly criminal and unlawful, to substitute for law and orderly government, the policy and practices of that organization."

The governor also vetoed a bill which would allow the industrial commission to adopt an experience rating table, giving employers with a favorable accident experience a lower rate on their compensation experience.

KENOSHA MAN GUILTY OF MANN ACT VIOLATION

Chicago.—Henry Rosso, Kenosha, Wis., was found guilty of violating the Mann act in Judge Landis' federal court here today. A jury declared him guilty after hearing testimony of Edna Williams that she had been brought here by Rosso and placed in a south side resort, where she turned half her earnings over to him. Mrs. Marie Batzlik, also testified that she was formerly an inmate of Rosso's home in Kenosha and gave him half or what she earned. Rosso will be sentenced later.

American, British and German Manufacturers Make Peacetime Tools.

By HAROLD D. JACOBS
(Copyright 1921 by the United Press)

New York.—American munitions-makers today placed themselves on record in favor of limitation of armaments.

Men whose business interests would receive huge profits through war, endorsed President Harding's proposed disarmament conference, both from a humanitarian and economical standpoint.

Chief among those who declared for armament limitation in statements to the United Press was Irene DuPont, president of E. I. DuPont & Nemours company, largest powder manufacturers in the world.

DuPont revealed that his concern had scrapped and dismantled 97 per cent of the plants which provided the United States and the allies with powder during the world war.

Others who took a stand against burdensome armaments were: Judge Albert H. Gary, chairman of the United States Steel corporation; Hudson Maxim, famous inventor of military weapons; H. E. Talbot, Jr., president of the Dayton-Wright Airplane company; Harry E. Mason, secretary of Parke-Davis company, Detroit chemical concern which engaged extensively in turning out war products, and Colonel E. A. Deeds, automobile accessory and airplane manufacturer, who was chief of aircraft production during the war.

Heads of the Electric Boat company, manufacturers of Holland type submarines and the Cramp Shipbuilding yards in Philadelphia, which builds warships for the United States and other countries, refused to comment on disarmament.

Make Peace Machinery London.—British "war trusts"

which turned out death dealing instruments during the war are now engaged in production of peace machinery.

Officials of several munitions concerns told the United Press today they will be little affected by limitation of armaments, which is expected to grow out of the Washington conference called by Harding.

Scrapping War Materials Berlin.—The Krupp works, which

in the past were synonymous with war, are literally beating swords into plowshares.

The metal derived from scrapping cannon, tanks and other engines of destruction is being employed by the reorganizing Krupp's concern in manufacturing agricultural machinery, locomotives and other peace commodities.

French Are Opposed Paris.—Opposition of some of the

big munitions manufacturers of Europe to disarmament was revealed here today in connection with the meeting of the league of nations committee of disarmament, which was scheduled to meet here Saturday.

Although the league invited the manufacturers to appoint permanent members of the committee they refused to have anything to do with the project, it was stated.

QUICK SALE OF MICHIGAN SOLDIER BONUS BONDS

By United Press Leased Wire New York.—Michigan's soldier bonus bonds, amounting to \$15,000,000 were sold in about three hours by a syndicate of New York bankers. The bonds are of twenty year maturity and bear 5 1/2 per cent interest.

The syndicate, at the same time sold \$10,000,000 worth of Michigan state highway bonds. The concern which handled the deal were the Guaranty Trust Co., Bankers Trust Co., National City bank and Harris Forbes & Co.

ASK CUT IN FREIGHT RATE ON LIVESTOCK

Washington.—A substantial decrease in freight rates on livestock in approximately two-thirds of the United States from the Pacific coast to the Mississippi and Chicago and from the Gulf to Canada was recommended to the Interstate Commerce commission by the Examiner Disque, of the commission.

The oral argument will be held Friday.

An application for an order reducing livestock rates was requested of the interstate commerce commission by the National Livestock Shippers league on the ground that the rates were prohibitive and menaced the livestock industry.

The examiner stated that while rates are not excessive when judged from a strictly transportation standpoint, they should nevertheless be substantially reduced to assist in tidying the livestock industry over its "present period of adversity and to hasten a return of normalcy conditions and business prosperity."

Says Infants Should Talk At Six Months

By United Press Leased Wire Chicago, Ill.—The six-months-old offspring, playing dominos on the pantry floor, sniffed a deep sniff and shouted:

"Hey, pa, the home brew is boiling over."

It may be a bit previous to put the baby on record for the above statement but speech by half-year old children is bound to come, according to Dr. Swift, of Northwestern university.

Too much of the infant's time, it appears, is wasted in uttering "meaningless goo-goo's and da-da's when the Einstein theory or disarmament could be discussed at an advantage."

Dr. Swift announced the opening of a clinic on the university campus to teach children of tender months how to talk.

"A baby usually cries for the first eighteen or twenty-four months," said Dr. Swift. "This is a big loss of time."

In his clinic, the doctor will demonstrate to parents how to get their children to talk coherently by imitation.

For some reason or other parents think all children can say is "da-da" and "goo-goo" and consequently that is all they do say, according to Dr. Swift. If sensible words were uttered by parents the child would talk sooner, he believes.

TAFT BECOMES CHIEF JUSTICE

Here is William Howard Taft achieving his life ambition. Associate Justice Hoehling of the District Supreme Court is administering the oath of office to Taft as chief justice of the United States Supreme Court. This was in the office of Atty. Gen. Daugherty, Washington.

REFORMERS WOULD CLOSE UP NATION

By United Press Leased Wire Washington, D. C.—A blue haze enveloped the nation's capitol today.

Noah W. Cooper of Nashville, chairman of the southern Methodist Sabbath savings crusade, presented to President Harding today a bill which would virtually close down the nation on Sunday.

Later he and members of his delegation conferred with members of congress urging support for the measure. This bill would prohibit on Sunday all work by employees of the United States.

All trains that enter interstate commerce. All work by postoffices. The publication of all newspapers that enter the mails.

Any business that is interstate commerce. The measure is limited to interstate and federal business because the jurisdiction of congress does not extend to state affairs. However, it is the plan to seek state laws in addition to the federal statute.

WANTS DISARMAMENT BUT IS AFRAID OF GERMANY

By United Press Leased Wire Paris.—Premier Briand, being a pacifist, favors any effort to prevent wars, but disarmament must be considered by France in connection with the ever present threat of Germany.

This was the presentation of the premier's views regarding the Washington disarmament conference, as given to the United Press today by a close friend of Briand.

"Mr. Briand himself is a sincere pacifist and deplors wars," he said. "All enterprises aiming to prevent wars are assured in advance of his sincere support. However, when it is a question of Germany, it is necessary to take all precautions."

Any disarmament which would reduce France's military force to the level of Germany's would permit Germany to attempt, with chances of success, the new aggression which she already calls "the revenge."

EXPERT SAYS MRS. KABER WAS INSANE ALL HER LIFE

By United Press Leased Wire Cleveland, Ohio.—Mrs. Catherine Eva Kaber, on trial for the murder of her husband, the wealthy Daniel F. Kaber, has been insane since her birth, according to testimony given at the widow's trial today by Dr. James C. Russell.

Dr. Russell, an alienist called by the defense, made this statement in reply to a hypothetical question.

BAND WILL GIVE CONCERT MONDAY AT PIERCE PARK

Pierce park will be the location of the third of the series of open air concerts by the Agullery band. It will be given at 8 o'clock next Monday evening. The band will hold its final rehearsal for the concert Thursday evening. Director Percy Fullinwider promises an attractive program.

TREASURY AIDE IS PRINCIPAL WITNESS

By United Press Leased Wire Springfield, Ill.—Harry Leubus, assistant state treasurer and the man who probably knows more about the administration of the state treasury than any person in the state of Illinois, was the chief witness Thursday before the grand jury probing the charges that Governor Len Small and Lieut. Gov. Fred Sterling misused state funds during their terms as state treasurer.

Leubus was expected to tell the grand jury what he knows about the \$10,000,000 loan to the Grant Park bank and of other loans made by the state treasurers.

George Bennett of Grant Park, said to be a partner of Alonzo Curtis during the time the latter operated the Grant Park bank, also was a witness today.

Bennett was expected to tell the grand jury when the Grant Park bank ceased to function as a bona fide banking institution.

PEACE RESTORED IN NONPARTY LEAGUE

By United Press Leased Wire Fargo, N. D.—Harmony and peace has again been restored in the Nonpartisan league after nearly two weeks of charges and counter charges as the result of an article published in the Fargo Courier-News charging mismanagement of the league's recall campaign fund by members of the state executive committee.

Settlement of the controversy was effected through signing of a statement by Geo. A. Tutton, Jr. and C. K. Gummerson, deposed manager and editor respectively of the Fargo Courier-News in which they retraced the charge against the committee.

An embezzlement charge was dismissed at Tutton's preliminary hearing late yesterday afternoon, when State's Attorney W. C. Green declared in justice court that the facts in the case did not warrant such a charge.

MILLIONAIRE ROBBERESS TRIES TO END HER LIFE

Chicago.—Mrs. Etta Heil, millionaire's wife recently convicted and paroled as a "burglar maid" was in the hospital today following her attempt at suicide last night by swallowing poison at a depot.

She has been living apart from Joseph Heil, broker, who paid out thousands of dollars to persons whose homes she sacked while employed as a maid.

ARNOLD BILL DOUBLES STATE INHERITANCE TAX

Madison, Wis.—Inheritance tax revenues will be doubled in Wisconsin as a result of the Arnold tax bill, signed today by Governor John J. Blaine.

The measure, the only comprehensive tax law of the session, provides for a widow's exemption of \$25,000 and will increase inheritance revenues about one million dollars a year.

TRAIN HITS AUTO ON ASYLUM-RD. CROSSING

Frank Spencer, Road Foreman, Struck by Speeding Automobile on Black Creek-Rd.—Woman Killed and Man Injured in Asylum-Rd. Accident

Frank Spencer, 69, 761 Lawrence-st., foreman of a road repair crew employed by Outagamie county, died at St. Elizabeth hospital about 12:30 Thursday noon from injuries received when struck by an automobile driven by William Strecek, 2316 Brown-st., Milwaukee, near Batley's corners on the Black Creek-rd. about 11 o'clock. Mrs. Robert Bloom of Doering, Wis., was almost instantly killed and her husband suffered injuries which may prove fatal when their automobile was struck by a Chicago and Northwestern passenger train at the Asylum-rd. crossing about 11:30 Thursday noon. Mr. Bloom is said to be in a precarious condition at St. Elizabeth hospital. Doctors will be unable to determine the extent of his injuries until after an X-Ray examination is completed.

Mr. Spencer had just completed a conversation with A. G. Brusewitz, county highway commissioner, when he was struck by the Strecek car. The highway commissioner, who was in an automobile, had driven about five rods toward Black Creek when the big Strecek car went by him at a high rate of speed. The next instant a passenger in Mr. Brusewitz's car exclaimed that a man had been injured.

Witnesses said that Mr. Spencer had hardly moved from the place where he was standing while conversing with Brusewitz when the touring car struck him. He was thrown over the bumper and when the driver turned sharply to the ditch at the left of the road the two left wheels passed over his body.

He was partly conscious when picked up and placed in Mr. Brusewitz's car and hurried to the hospital. He died about a half hour after reaching the institution.

Mr. and Mrs. Bloom were driving east on Asylum-rd. in an Overland runabout. Witnesses of the accident say they kept on going toward the track as if it was too close to the right-of-way, however, and the right front and rear wheels were astride the west rail. The engine bore down on the machine, striking it in the rear right hand corner.

Witnesses say the car was carried along for about 50 feet on the plot of the engine and then made its way diagonally down the embankment until it reached the ditch, where it reposed in an upright position. The car was demolished.

Mr. Bloom attempted to jump out of the machine just after the engine had struck it, bystanders said. He had one foot over the door but could get no further. He was thrown into the ditch about 30 feet from where the crash occurred. The man was rushed to St. Elizabeth hospital in the city ambulance. The attending physician was unable to state the exact extent of his injuries until an X-ray examination has been completed, but it is possible that he has suffered a fracture of the spine. He had minor abrasions on one leg and arm, but no other external injuries have developed. Mr. Bloom regained consciousness and appears to be as favorable as circumstances will permit.

Mrs. Bloom was thrown out of the automobile about 20 or 30 feet further away. She was unconscious when picked up, but there still was life in her body. She died within a few minutes without regaining consciousness. Her external injuries appeared to be a broken jaw and chest wounds. The body was conveyed to an undertaking parlor in the ambulance.

The automobile was struck by Chicago and Northwestern passenger No. 131 of the Ashland division. The train was reported to be proceeding about 45 miles an hour and was said to be 13 minutes late when it left Appleton Junction. It was 11:10 when the accident occurred. Edward Kittel was the engineer and Conductor C. L. Durkee was a conductor. Members of the train crew said the car could have passed over the crossing in safety, but Mr. Bloom appeared to lose his head.

Mr. Bloom appears to be a man of about 40 years and Mrs. Bloom about 35.

William Lieber, Neenah, and Harry Dargow, Big Falls, were in a Ford car directly behind the Bloom machine when the latter was struck. The Ford was less than five feet from the railroad tracks but averted a collision by turning sharply to the right and stopping against an earth embankment.

(Continued on Page 5)

NEW GUARDIAN AND PASTOR APPOINTED AT LOCAL CHURCH

Father Basil Succeeds Father Josephat as Pastor of St. Joseph Church.

Father Josephat Muesig, guardian of St. Joseph church and pastor of St. Joseph church for the last three years, has been transferred to Yonkers, N. Y., and will be succeeded here as pastor by the Rev. Basil Gummertman of Milwaukee, who was guardian of the local congregation for six years, leaving here six years ago. The transfers were made at the provincial council in Detroit. Father Josephat did not return to Appleton but went directly to Yonkers. Father Cyril Kusner of St. Elizabeth church, Milwaukee, will be guardian of the local monastery. A new division in offices promulgated at the Detroit conference established the positions of guardian and pastor as separate offices. Heretofore the same man filled both positions.

The Rev. Father Pacificus and the Rev. Father Leo have been transferred from the local church to the monastery at Marquette, Wis., where Father Pacificus will be guardian. The Rev. Father Theophilus will be returned to Appleton from Marquette City and will be vicar of the monastery here, succeeding the Rev. Father Ulrich who will remain in Appleton.

LOST CERTIFICATES CAN BE REDEEMED

Replacement of lost, stolen or destroyed treasury savings certificates of the United States government is possible under instructions received by Postmaster Gustave Keller.

Registered owners who lose their certificates may apply to the secretary of the treasury for issuance of duplicates or payment of the original, the notice says. Full details as to the proper manner of application will be furnished by the postoffice.

It also is possible to register a certificate in the names of two persons. They will be payable to either without the signature of the other, but no two persons can hold jointly more than \$1,000 worth of these securities. They should read this way: "John Jones or Mary Jones."

Certificates also may be payable to a designated beneficiary in case of the death of the registered owner. The form for making them out is "John Smith, payable upon death to Mary Smith." This makes collection possible by the designated person if the owner dies. The limit of the amount held under this plan is \$1,000.

BEG PARDON

John Steidl proprietor of Waverly beach, says the jewelry stolen from J. M. Guilfoyle Kaukauna, while in bathing Tuesday evening was not taken from a locker at the bath house. The loss approximated \$100 instead of \$400.

REALTY TRANSFERS

Property transfers recorded with the register of deeds Thursday morning were Hans Meyer to Charles C. Koepfer, lot in Sixth ward, Appleton, consideration, private; Ida Gensch to Stanley Gracyk, lots in Center, consideration, private; Herman L. Witte to Walter Haws, 23 acres in Horton, consideration, private.

Build at Night

Electric street lights furnish one way to dodge the hot weather. Workmen who are building a new house on Pacific-st. found they were given such good light at night that they could do their construction work then. Accordingly they laid off during the heat of the day and have spent several nights working on the structure.

Filled With Tourists

Mr. and Mrs. Charles H. Emdor and Mr. and Mrs. John Goodland returned Wednesday from a two weeks' outing at Three Lakes. Mr. Emdor said the northern part of the state is filled with tourists who camp along the roadside or wherever they can find an open space. Three Lakes has had occasional showers and is not suffering from a drought.

The Weather

FORECAST FOR APPLETON
(By Schaefer Cycle-Stormograph)
Fair with fresh winds tonight and Friday.

FORECAST FOR WISCONSIN
(Official)
Fair tonight and Friday; somewhat cooler tonight.

WEATHER CONDITIONS

Thundershowers will prevail over most of the territory east of the Mississippi during the next 24 hours, the weather bureau stated today. Lower temperature will prevail tonight in the upper lake region and on Friday in the lower lake region.

CLOTHING FACTORY MIGHT LOCATE HERE

Newly Organized Chicago Concern Wants to Know About Appleton.

Appleton is being considered by a new clothing manufacturing concern organized in Chicago as the possible site for a small factory. A letter of inquiry from Decker and Golden, Chicago, attorneys, to the chamber of commerce seeks information about the city and the inducements that might be offered for locating here.

Manufacture and sale of men's and boys' trousers will be the business of the new corporation, the letter says. The executive organization is complete, including men of experience and holding an established trade. The plant will employ 100 to 150 people, 10 per cent of whom will be men. Manufacturing space of about 15,000 square feet is wanted. The concern is said to be amply financed and seeks no assistance of this kind. Its plant will operate 12 months a year.

Secretary Hugh G. Corbett is compiling the necessary data and will tell the attorneys of the desirability of Appleton.

TWO AUTOS DAMAGED IN COLLISIONS WEDNESDAY

Dr. Mitchell's automobile was damaged slightly Wednesday morning while parked on Soldier-sq. when a machine owned by F. W. Radtke, 933

Fire Fighters Getting Ready For Turtle Soup

On the roof of No. 1 station, reposed in the warm sun, is a box filled with turtle soup. If conditions are right and Old Sol penetrates the sand with plenty of heat rays, the box will contain something else—71 baby snapping turtles.

This immense family will belong to one mother. She is a turtle whose shell measures fully 12 inches the long way and was found waddling along the pavement near Pettibone's store about a month ago by Officer John Kobussen of the police department.

The officer took her in a barrel partly filled with water at the rear of the fire station. Wednesday she laid one or two eggs in the barrel and then was taken out by the firemen and placed on an ash pile. She deposited one egg after another, covering them over with ashes. After the egg laying was completed the firemen uncovered them and found 71. The turtle was returned to her barrel and the eggs placed in a box of sand and covered over. The box will repose in the sun until the eggs hatch.

Chris Deitgen and Jacob Lohn of the fire department are mothering the eggs and are debating whether to start a turtle farm or have a spread with turtle soup.

PLENTY OF EXCITEMENT ON DRY WESTERN PLAINS

Cowboys, Indians, rattlesnakes and moonshine are still the chief features

NOTICE

The Board of Equalization will meet at the City Hall, Monday, July 18th and will be in session from 9 a. m. to 4 p. m. each day except Sunday for two consecutive weeks to hear and adjust any claims regarding assessments of real and personal property in the City of Appleton. This is the time for taxpayers to ascertain what they are assessed for as this is the only time adjustments can be made.

Board of Equalization

Appleton st. ran into it. Nobody was injured.

Automobiles driven by John H. Bartlett, 23 Algonquin-st., Oshkosh, and R. E. Hooper, Shawano, collided Wednesday at the corner of College-ave. and Oneida-st. Only slight damage resulted and none of the occupants was hurt.

JANESVILLE COW BREAKS STATE MILK RECORDS

Janesville, Wis.—Johanna Beauty Battles, No. 401,899, owned by John Wehinger & Son, Janesville, now holds the state record for junior 4 year olds, of the Holstein-Friesian herds. Her record, according to a statement received by the owners from the Holstein-Friesian World, official paper of the association, was 704.2 pounds of milk in seven days. This is within four-tenths of a pound of the record of senior 4 year olds. Beauty Battles has a record of 75 days' milk of an average of 87.35 pounds a day or 6,554.2 for the period.

APPLETON MAN'S CAR STOLEN IN CHICAGO

Silas Buchman, 811 North-st., is one of the latest victims of Chicago automobile thieves. Buchman's Chandler roadster was stolen Monday night while standing in front of the Chicago apartments of W. W. Buchman, a brother of the Appleton man. Chicago police are working on the case but have little encouragement to offer.

Louis Hoffman has returned from a short visit to Milwaukee.

FALLING HAUSE KILLS MAN; YOUTH INJURED

Prentice, Wis.—Ernest Carlson was instantly killed and the young son of G. Chamberlain received what are believed fatal injuries when rotten timbers in a house owned by Mrs. S. A. Ayers collapsed.

G. Chamberlain, father of the injured boy who was also pinned under the debris escaped apparently uninjured.

The house, which is located on the corner of Main street and First avenue, was being raised and was standing on jack screws. The entire portion of the house caved in.

One of the main beams hit Carlson, killing him at once. He leaves a widow and a child, three months old.

Hotels are Crowded

Commercial men were never known to be as numerous at this time of the year as at present. As a usual thing wholesale houses call their men in during July and August, but so far hotel men report no diminishing of numbers and indications are that the season will forego their usual vacations. Between commercial men and tourists local hotels are crowded every night.

REELECT BACHMAN AS HEAD OF LABOR

Labor Council Discusses Plans for Annual Picnic on Labor Day.

F. E. Bachman was reelected president of Appleton Trades and Labor Council at the semi-annual meeting at Trades and Labor hall Wednesday evening.

Other officers elected were

Vice president, F. S. Aylsworth, recording secretary, Michael Bleick; financial secretary, George Brock; treasurer, N. C. Gintz; trustee, E. A. Heldebrand; sergeant-at-arms, Andrew Stroup.

Preliminary plans were discussed for a celebration on Labor Day and a committee consisting of F. Aylsworth, William Eggert, Raymond Smith, George Brock and William Struck was appointed to make the necessary arrangements.

Delegates who will represent the various unions at the annual convention of the Wisconsin Federation of Labor at Manitowoc the week of July 18 are:

Mill workers, Henry Stutz; teamsters, Raymond Schmidt; bricklayers and plasterers, Ernest Stroup; painters and paper hangers, F. S. Aylsworth; typographical, A. J. McGregor; paper makers, George Schneider; pulp and sulphite workers, Charles Sample; carpenters, A. Campshire; barbers, William Prink; Appleton Trades and Labor Council, F. E. Bachman.

Mr. and Mrs. William Rozier of Hartford, Herman Belling and his niece, Mrs. Carrie Kluge and daughter Ruth of Milwaukee, returned to their homes Thursday morning after several days' visit with C. A. Pardee, Sr., at his lake cottage.

PRISONER RECAPTURED AFTER LEAVING PRISON

Officials of Green Bay reformatory notified the police department Wednesday evening of the escape of John Euclid, 23, who made his getaway about 5 o'clock in the evening. He was said to have escaped in an automobile driven by L. Dehouch, employed with the Chicago and North-western wrecking crew at Appleton. Investigation revealed that no man by that name was on the railroad payroll. A later report from the reformatory said Euclid had been captured.

Takes New Position

County Superintendent Florence Jenkins formally assumed her duties as secretary of the county training school board at a meeting of the board in Kaukauna Thursday afternoon.

TRUCK TRAILER TIPS OVER IN DEEP DITCH

A trailer attached to a heavy motor truck of the Green Bay Transportation Co. went over an 18 foot embankment on the Kimberly road near the end of Newberry-st. Wednesday and was badly

ly damaged. It was loaded with butter, canned vegetables and soft drinks which were scattered about in all directions. The accident occurred in a narrow part of the road and was caused by the driver turning out too large a load of an automobile pass. Four other accidents at the same point have been reported this season.

How Many Pairs?

To be sure, one pair of feet has to carry your weight all the time, but don't put that burden on one pair of Shoes. Neither feet nor Shoes will stand up under it. For the sake of both, an occasional fresh pair is good business, means a world of comfort, too. This July selling offers a fine opportunity to stock up at little cost.

BIGGEST ELEPHANT COMES TO APPLETON

Tusko, Barnes' Largest Pachyderm, Is Six Inches Taller Than Jumbo Was.

Appleton Jr., which includes youngsters from seven years of age to seventy-seven, will be interested in the announcement that the Al. G. Barnes 4-ring wild animal circus will return to this city Monday, July 25 for two performances.

Frank A. Cassidy, publicity director for Mr. Barnes, who was in Appleton yesterday, is authority for the statement that the Barnes circus is carrying this year the largest elephant ever exhibited in the world.

The mammoth pachyderm, according to Mr. Cassidy, reached the circus during its engagement last week in Minneapolis, having been shipped by fast express from San Francisco. It was shipped from Singapore, India, more than two months ago.

Mr. Cassidy exhibits a picture of "Tusko," as the new addition to the Barnes menagerie will be known, that bears out his statement that the elephant is six inches taller than was "Jumbo," the most famous of all elephants.

The spectacle "Alice in Jungleland," which opens the Barnes performance is said to have been greatly enlarged this year. Four prima donnas, several male soloists, and a singing and dancing beauty chorus make this spectacle one of the most elaborate ever attempted by a tented enterprise, Mr. Cassidy said.

One hundred and ten animals acts make up the Barnes program, and there are novelties galore. The show will arrive here on Sunday, and the circus grounds undoubtedly will prove an attractive spot for sight-seers on that day.

Appleton In Early Days

O. P. Schlafer.

I came to Appleton in August, 1876, to work as bookkeeper for Bailey and Dillard, owners of a large hardware, grocery and crockery store. I had been in Waukesha and I came to this city in a rather strange manner. I had been negotiating for a position at Brandon and the day before I made arrangements to take the job, Mr. Bailey spoke to a friend of mine about his need of a bookkeeper. My friend spoke of me and immediately the man wrote to me. I preferred Appleton to Brandon and I told the Brandon man that I would take the position he offered me if I did not like Appleton.

However, when I got here I remained. I thought I had a better opportunity for the future here. The city then was of about 5,000 population and there were no big buildings or paved streets. College ave. was worse than a country road of today. There was a blast furnace where the Telulah mill warehouse now stands and the men used to haul iron up and down the avenue to the Northwestern depot and they kept the road dug up.

A large farm occupied the land where the church on North and Drews, now stands. The land from the avenue to Washington-st. was fenced in and made a fine cow pasture. Pettibones was perhaps the largest store in town. Bailey and Ballard, Galpins, Clarke and Edwards and W. J. Butler were among the big business places at that time. Turner hall gave us most of our amusement. The only cemetery in Appleton was where the McDonald yards now are. They had just started Riverside when I came here, but people were still buried in the old cemetery.

Miss Mabel Luebben is taking a vacation of two weeks.

IT'S ALL HAIR

There's no concealing woman's status among the Japanese! If you're in the know you can tell by the way they wear their hair. Flapper style hair dress is shown above, the wifely coiffure middle, and below is the way the "old maid" wears her hair.

WANTS SCHOOL BOARDS TO REPORT ON TEACHERS

In order that the county may know just how well it is supplied with teachers, County Superintendent Florence Jenkins urges school boards to report to the county superintendent's office if they have engaged teachers.

So far only 39 school boards have reported engaging teachers and nearly 100 school boards are yet to be heard from. Miss Jenkins points out that it is necessary for the county to know just what the situation is as only a few more weeks remain before the schools open.

Loan Closet

A loan closet capable of storing a large amount of clothing has been installed in one of the rooms at the Red Cross center, Appleton-st. All donations of new or used clothing will be kept here until wanted. Part of the space will be used for sickroom clothing and emergency equipment. Donations are being received continually for the closet.

C. J. Primus of Chicago, is spending several days in the city for the purpose of organizing a "Lion" club among business men to function for community service.

No Death Toll Here From Careless Use Of Gasoline

Appleton fortunately has escaped from participating in the Wisconsin toll in 1920 of five deaths and thirteen injuries from gasoline explosions or fires caused by the careless use of this highly inflammable fluid. The industrial commission is waging a new campaign of warning in an effort to make people be extremely cautious in the future.

Autoists who use a match to find out whether there is plenty of gasoline in their tanks usually find enough to cause an explosion. Other hazards include looking into the tank while smoking, filling the tank while the motor is running, or filling the container by the light of lantern, lamp or candle.

Ladies continue to wash silk waists, ties and fabrics in gasoline in an open dish, the commission says. The more rubbing often will generate enough electricity to cause an explosion. Stove fires or lighted lamps nearby also cause explosions.

Hardly able to keep up with and combat suicide advice, the commission still finds advertisements and magazine articles advising the mixture

of gasoline with soaps, borax, ammonia and other preparations for cleaning cloths, fabrics, rugs and other things. A recent article advises spraying closets with benzine to get rid of moths, mixing crude oil and benzine for a "fine furniture polish" and other dangerous advice. Softening water and making washing easier by putting gasoline into a boiler of hot water and spraying bedroom furniture with gasoline are practices that have caused serious accidents and death.

Kerosene is quite as apt to explode as gasoline when used to start or quicken fires, especially where live coals are left in the fire pot. Five deaths and eight injuries were reported from this cause in 1920. Use of benzine stove polish on a hot stove caused one death. Benzine and naphtha are in the same class as gasoline.

"Gasoline should be defined as a petroleum product more powerful than dynamite, as sure to explode as nitroglycerine, as deadly as cyanide of potassium, as innocent looking as water, never fool-proof or danger-free," the industrial commission says. "It should be stored underground and used outdoors."

HALF OF STATE IS BENEFITED BY RAIN

Madison.—Crops in about one-half of Wisconsin were benefited by rain last week, but in the other half they are suffering from the continued drought, according to the weekly Crop Progress Report of Joseph A. Becker, Agricultural Statistician here today.

Because of the local character of the showers, crops in many counties are in part revived and in part drought stricken. In the Eastern Lake Shore counties the condition is very serious. Farm work is at least two weeks early. The harvest of spring grain are being cut with the yield light because of the drought and rust damage. Live stock have been turned into many fields in the eastern counties.

Corn condition as a whole continues excellent, although in localities missed by the rain it is suffering from lack of moisture. Early planted corn is tasseling in southern and western districts. Potatoes generally have been revived but the rain was not sufficient in the commercial districts of Central Wisconsin. The late varieties there are spotted and the vines small. Much replanting has been done.

Tobacco in Dane county district was improved by the rain. In Vernon county the area is suffering from the continued drought. The harvest of late planted peas is nearly completed. The canning peas are early and short and the yield light. Pastures are scant except where the showers were heavy.

WANTS CITY TO LEARN COST OF VIADUCT ON LAKE-ST.

At the last meeting of the common council sentiment manifested itself in favor of the building of two bridges across Fox river, one at Law-st. and the other at Cherry-st. It will be necessary at this time to obtain plans and specifications for these proposed structures in order to arrive at a fair estimate of the cost of such work and a leading attorney inquires if it would not be a good plan to also obtain plans and specifications for Lake-st. viaduct, frequently advocated in the past, which if built would answer the purpose of both bridges and centralize traffic through the heart of the city. He doubted if the viaduct would cost the city as much as the two bridges as a portion of the expense would be borne by the Wisconsin Traction,

Light, Heat and Power Co. and the Northwestern Railway Co. and Chicago, Milwaukee and St. Paul Railway Co. in the elimination of dangerous railway crossings.

Oscar Reinhold of Oshkosh was in Appleton Tuesday on business.

Don't Worry About Your Complexion Cuticura Will Take Care of It

CITY PLANNING COMMISSION'S PROGRAM

The newly appointed city planning commission is to be commended for its early start on the problems which only come before it. At its meeting Tuesday evening the commission not only perfected its organization and spent some time in getting acquainted with the provision of the state law covering its activities, but actually launched a program of work which shows that it intends to take an active and vigorous part in planning future Appleton. The traffic problem is the first to be taken up and there is little doubt that a plan will be worked out whereby traffic conditions in Appleton will be improved.

It is apparent, too, that one of the early activities of the planning commission will be the consideration and recommendation of a survey of Appleton, as such a survey should be the foundation upon which the commission can build intelligently and systematically. A carefully planned, thorough and intelligent survey will be a sound guide to future public improvements for years to come. Such a survey, we believe, should be made by a competent outside party—a man disinterested in Appleton politics, neutral in petty personal or factional desires, and by all means a man who is an expert in city planning matters.

We think it is not an exaggeration to say that a survey of the city is the most important matter to come before the planning commission. Without it we can hardly see how the commission can take the forward steps which is expected of it. When such a survey is completed we shall develop our public works and build our city on permanent lines. We shall expand our industries with proper regard for residence property; we shall pay heed to sanitation, light, air, housing; we shall better harmonize private and public rights.

City planning is no different from corporation building. We should build our cities, so far as streets, parks, public works, housing, business and factory areas are concerned, with scientific regard for future needs and consequences. That is the way that great industrial plants and great industrial centers like Gary are being built. It is the way the Panama canal zone was treated. It is the method all cities which take into due consideration the rights and welfare of their people will eventually adopt. It is the economical and efficient way because it avoids useless rebuilding, reorganization, shifting of areas and abandonment of property improvements. When the survey is recommended and completed, and we venture that it will be, we shall have a composite picture of Appleton as it ought to be to make it and its environment the nearest approach to an ideal city—ideal for residents, ideal for manufacturing, for business and commerce, for public convenience, comfort and happiness. It will indicate how we should develop our parks and playgrounds, our school sites and buildings, our recreational facilities and numerous other municipal works which relate intimately to living conditions and to personal and civic progress. It will show us how to make the most of our exceptional river frontage, our charming natural beauty and surroundings. A survey will stimulate the demands for a better Appleton. When we see the possibilities of our city we shall want to realize them. We shall take an entirely new interest in municipal affairs.

The organization of the planning commission marks the beginning of a new civic era for Appleton. We have no doubt but the plans of this commission will result in a greatly enlarged program of public improvements, and that within a few years we shall have made rapid progress toward carrying out the program.

POTENTIALITIES OF THE DISARMAMENT CONFERENCE

The reception accorded President Harding's proposal of a disarmament conference by Great Britain and France is at once significant and prophetic. Lloyd George's comment can scarcely leave any doubt that he knew what was coming, and that the plan to enlarge the conference to embrace Far eastern and other problems had his approval in advance. In other words, the announcement and reception of the program indicate that it had been the subject of informal exchanges between the governments confirmed and the United States before it was given to the public.

The far-reaching consequences of the conference are beginning to impress themselves upon observers of foreign affairs. It is a foregone conclusion that it is going to be the controlling factor in the renewal, modification or denunciation of the Anglo-Japanese treaty of alliance. Consideration of Chinese interests, of Japanese policy throughout the Orient, of the Yap mandate, Pacific ocean cables and other matters bearing upon the future relationships of the nations in conference, and particularly those of Japan, the United States and Great Britain, will determine the fate of the Anglo-Japanese alliance, as well as its precise nature if it is to continue.

If it is possible for the conferees to reach a satisfactory agreement on the questions to be submitted there will have been laid the groundwork for permanent peace in Asia and America. The assurance of peace in these quarters would have a large influence upon the peace of Europe, and would go far toward creating that atmosphere out of which at least the purposes of the League of Nations are to be realized. The conference will certainly define clearly an understanding between Great Britain and the United States and the fact that it is not to be disturbed by treaties or alliances in which either may engage. Public opinion not only in England but throughout the British empire has fully settled the point that the treaty with Japan is to obligate the nation in no way against the United States. That much at least is determined. An incident of this development will be a stronger inclination on the part of Japan to reach a similar peaceful understanding with the United States, and it is not unlikely that the ultimate effect of the conference will be to solidify Great Britain, France, Japan, China and the United States in the acceptance of certain policies which will work out to the mutual advantage of all and which will be founded on simple justice and right, thereby discarding the subtleties and exploitations of the old political system that took all it could by connivance and sharp practices.

The enthusiasm of Great Britain and France over the now assured disarmament meeting presages its genuine success. The governments cannot emerge from this conference without an agreement for the reduction of armaments; they would never dare to go back and face their peoples with inaction or failure. But the fact that the conference seems destined, to also settle political issues vitally touching future peace has raised it to the plane of an international gathering second in importance to none, unless it be the Versailles conference. If it succeeds in its political aspects, the results in Europe and the world at large will be tremendous.

CUTTING DOWN THE PAYROLL

A preliminary survey by the reorganization commission shows that there are approximately 740,000 persons on federal government payrolls. This includes the 300,000 in the postal service, 245,000 in the army and navy; and the employees and agents of the diplomatic, consular, customs, revenue and other services scattered throughout the world.

In the District of Columbia the government payroll has been cut from 117,760 in 1918 to 83,452. Still heavier cuts are expected in many lines when Budget Commissioner Dawes and Reorganization Manager Brown get their broadaxes to working.

Congress, always more mindful of patronage than of economy, is expecting the worst and we hope its expectations will be realized.

H. C. L. IN SOVIET RUSSIA

Riga.—To buy a pound of butter in Soviet Russia, you have to carry your money in a bushel basket. The current price is 22,000 rubles. Meat is 13,000 rubles a pound. Clothes and shoes—you can't buy them at all, because there aren't any.

50 MOVIES IN CHINA

Shanghai.—The 400,000,000 people of China have to depend on 50 movie theaters for amusement. Most of them are in the coast cities.

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician and Author.

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

THE RIGHT TO HAND IT AROUND.

With all our fine pretenses of good will to mankind and brotherly love and that sort of thing, most of us prefer to preach such sentiments to the rest of the world and practice different ethics ourselves. For instance, when one of our own family comes down or is "threatening" to come down with some acute respiratory disease, goodness knows what at first, we practice this good will to mankind bunk which we are so fond of preaching? Not much. We consider our own little convenience and business interest only. In short, we ignore the unpleasant fact that practically every such illness is infectious and when spread to other persons may prove serious or fatal, even though it turns out a mild or trifling illness in our own case. Ignoring this fundamental fact, and suppressing any little twinges of conscience which may annoy us, we decide to "beat up and fight it"—that is to say, we insist on keeping about the house and deliberately exposing all who come in contact with us to whatever infection we may happen to be peddling. That is about the extent of most of this brotherly love slush we delight to sling around. Ah, but have we no defense? Huh! A pickpocket is usually trying to get his hands warm! We declare solemnly that we "don't believe" in "colds," "coughs" or "flu," and that we are "very careful" not to cough or sneeze or spit in people's faces, or that we just want to run down to the office for an hour or two and come right back (meanwhile not counting the twenty or forty poor mortals we may have peppered on the run). Oh, of course, people with communicable disease should be strictly isolated, but our case isn't so very dangerous, is it? It is the same old story that presumably honest and law-abiding citizens are constantly dining in the physician's office, or do not report the epidemic in our fair city; it would tend to injure business.

The respiratory infections, all spread through contact or propinquity with unisolated cases, constitute a good four-fifths of the everyday sickness which keeps physicians busy. Neither diphtheria nor any other respiratory infection is one which more preventable or more easily prevented than ordinary, if not always simple coryza, or, as I regret one must say in order to be intelligible, the "common cold," so-called. I dare say that that ordinary coryza is responsible for more permanent damage and more deaths than diphtheria today.

It would be far better to send a child to school at the height of an attack of scarlet fever or measles than to send a child to school with a "slight cold in the head," for a good share of the school children are already immune to scarlet fever and measles, but precious few, if any of them, are immune to the most vulgar and vicious of all the disease we assume it a right to spread.

QUESTIONS AND ANSWERS.

The Ruminous Acetanilide Habit.
In view of the prevalent use of drugs containing acetanilide an article on this subject in your splendid column would be of interest. What would be the effect of the constant use of a so-called headache remedy in which there are twenty grains of acetanilide to the ounce, the dosage being a heaping teaspoonful taken in water as an effective draught? (M. L. O.)

Answer.—Physical and mental wreckage. Acetanilide hampers the sense of pain, anxiety, fatigue or discomfort. Thus it encourages habituation in persons of weak will power, who take it rather than face the daily trials of life. It destroys red corpuscles, seriously interferes with the oxygen-carrying function of the blood, breaks down the nervous system, and in many instances hastens death. That any dope containing such a harmful drug is obtainable by man, woman or child, without any restriction whatever is a sad commentary on our civilization and American law. And acetanilide is the "kick" in a thousand and one nostrums purporting to be not only good for neuralgia, headache, gripe, "colds," etc., but "harmless."

Vinegar.

Is vinegar harmful to the system? I understand that it is splendid for reducing. (Miss B.)
Answer.—Vinegar is a poison, especially injurious to the kidneys and the liver. Diluted acetic acid (the acid of vinegar) was never intended as a food. Lemon juice was intended as a food, and is not poisonous, and may be advantageously used instead of vinegar. The myth about reducing by taking vinegar is rank nonsense, of course.

Removal of Tattoo Marks.

Can tattooing on the arm be removed when it has been there for ten years? (E. K.)
Answer.—Usually the only way to remove such marks is by excision of the dyed portion of skin, and a grafting of skin on the raw surface from some other part of the body. Sometimes small marks may be removed by tattooing with caustics, which bring about sloughing of the dyed skin. Persons indulging in art of this class ought to be taxed heavily for the privilege; and the "artists" who thus mutilate the human body ought to be given jail sentences for the crime.

Twenty-Five Years Ago

Thursday, July 16, 1896.

Attorney D. T. Winne was in Black River Falls on business.

Leslie Mainland of Racine, was visiting Appleton relatives.

The J. C. club met at the home of Miss Amelia Fredericks the night previous.

Mr. and Mrs. Bertin Ramsey entertained at a dancing party at their home on East College-ave.

J. E. Blackwood left for a week's visit with relatives at Milton and Whitewater.

The temperature was cold enough for a frost the night previous.

H. W. Ulrich returned to Chicago after a two weeks' visit with Appleton friends.

The foundation for the Methodist parsonage was completed and timbers and lumber were being unloaded for the superstructure.

Harry Ferguson, James McGovern and Chester Williams rode to Oshkosh on their wheels the day previous, covering the distance in an hour and a half.

The vacancy in the faculty of Lawrence university caused by the resignation of Prof. G. B. Meriman, was filled by the selection of Prof. F. E. Mills of Cornell university.

Patrick Garaghty of West Menasha was tarred and feathered by ten neighbors who called for him at his home late at night. Cruelty to his family was alleged as the cause.

The army worm was causing havoc in the towns of Seymour and Oshkosh.

Mrs. Margaret McCormick, 75, died the evening previous after a several weeks' illness.

Milk dealers of Neenah and Menasha entered into an agreement to sell milk at not less than 4 cents a quart and cream at not less than 25 cents a quart.

STENOGRAPHS FORM UNION

Hongkong.—Girl stenographers and typists will drop their powder puffs when the whistle blows, hereafter. And the boss won't dare to complain. The girls have formed a labor union.

Economy In Government

By Frederic J. Haskin

Washington, D. C.—The American Government's first great move for economy in administration, already under way in the inauguration of the budget system, is to be aided materially by the reorganization of the executive departments of the Government. For some time the Congressional Joint Committee on Reorganization has been quietly at work. It is composed of three Senators, three Representatives, and Mr. Walter F. Brown, of Toledo, Ohio, chairman.

Haskin

Mr. Brown is devoting all of his time to the business of mapping out a new working plan for the government departments which will enable the executive branches of the government to operate more smoothly and effectively, and at the same time at a considerable saving in money. Mr. Brown's task is nothing more nor less than to put the greatest piece of business machinery in the world, the government of the United States, on an economical footing.

It is no secret that government machinery now is anything but the smooth running organization that such big corporations as the United States Steel company and the Standard Oil companies have built and it is old-fashioned and clogged with dead wood, hampered by countless duplications of effort on the part of the many branches of the executive end of government, bound down with red tape, loaded with useless papers and records, and hide-bound in many instances by out-worn traditions.

Mr. Brown is not going at the task like the ordinary efficiency expert. He is not figuring out some way in which a clerk can rubberstamp 30 additional letters each day by adopting some curious twist of the wrist in using the stamp. He is going at it along very broad and general lines. He aims to save hundreds of millions of dollars.

It is fully realized by the members of the Joint Committee that myriad elements must be considered in their task, and that great harm instead of the hope for great good might easily come out of their efforts unless they are guided by real wisdom. It is realized that the system in vogue now has grown up with the nation for nearly a century and a half, and that the whole machine cannot be taken apart boldly and put together again haphazardly with any expectation that it would run easily and economically.

Method Employed

Broadly, the committee has laid out the executive work of the government along 23 distinct branches. These branches are fiscal affairs, criminal investigations, administrative service, national defense, defense and prosecution of suits, territorial and colonial affairs, communications, including the postal service, commerce regulation, foreign relations, regulation of banking, assistance to migration, trade promotion, industry promotion, agricultural development, public education, public health, public works, conservation of natural resources, labor problems, administration of the public domain, primary statistics, rehabilitation of war veterans, and immigration, including naturalization.

Charts have been made for each of these subjects. Then investigation has been made to see how many departments, bureaus, and commissions of the government have been duplicating each others work. The result of this has been the discovery of scores and scores of overlapping efforts, evidence that widely separated departments have been spending valuable time and effort doing the same work and getting the same results, duplicating not only the work, but its cost as well.

The joint committee has as its general goal rebuilding the governmental departments so that each will have a great major purpose, and the activities which naturally fall within the scope of that department will be assigned to it.

Probable Saving

When the committee began its work, it was hoped that not less than \$300,000,000 might be lopped off the yearly bills of the government, but as the work has progressed new possibilities have been shown and it is now more likely that a saving of half a billion a year can be worked out. One reason for boosting this estimated saving is the suggestion that the present War and Navy departments be amalgamated into one Department of War, with army and navy branches.

When the plan on which Mr. Brown and his committee are at work is completed and ready to go into effect, there is sure to be tremendous opposition from many quarters. Every man and woman who would be affected is going to fight against it. As congress must, of course, approve of the Brown plan before it goes into effect, the pressure will be brought to bear on congress. A lot of propaganda has already been about to ditch the scheme of saving, but President Harding's ultimatum that any government clerk attempting to hamper the work of reorganization would be dismissed, has had its effect. The flood of form letters to members of congress ceased, which was taken as evidence that those conducting the propaganda were men interested solely in holding their own jobs.

There is propaganda of other sorts at work, of course. Prominent among the active groups is the educational group, which is striving hard for the inclusion of a department of education instead of a department of public welfare, in the reorganized government machine. For a great many years the educational forces have made this demand, and strong pressure is brought to bear on congress right along for this purpose. This is offset to some extent, though, because the educational forces have brought certain religious forces into their fight, and the old Catholic and Protestant question has arisen in the matter of the proposed creation of a department of education. The Catholic group wants the government to take little hand in the direction of educational matters.

The proposal to amalgamate the war and navy departments is certain to meet bitter and determined opposition. The combination of the departments naturally would eliminate many of the posts held by high ranking army and navy officers, and these officers and their probable successors, with their friends and followers, are expected to fight hard against the move suggested as an economy measure.

If congress adopts the plan being worked out by Mr. Brown and the other members of the committee, it is going to mean a tremendous cut in the federal payroll. It is estimated that not less than 30,000 names will be cut off, and the number may go as high as 50,000. The bulk of these clerks would be those employed in Washington, but federal offices maintained elsewhere would be affected, too. Experts estimate that the average government clerk costs about \$2,000 a year. The average pay is in the neighborhood of \$1,200 annually, the balance of the \$2,000 being made up in the cost to the government of providing a place for the clerk to work, office supplies, and the like. Taking this figure as a fact, the discharge of 30,000 clerks would mean a saving of \$60,000,000, and an even \$100,000,000 of governmental expense would be cut off if the government got rid of 50,000 clerks, which some members of the joint committee regard as highly probable.

THE QUESTION BOX

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot give advice on legal, medicinal, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. What are the qualifications for entry in the United States Open Golf Tournament? P. L. C.

A. This tournament is open to professional golf players throughout the world, and to amateurs, who are handicapped at five or less by the United States Golf Association, or those having a corresponding rating given by the official golf association in the country from which they enter. The tournament will be played beginning July 16th, over the golf course of the Columbia Country Club, at Chevy Chase, Maryland.

Q. What state has the most silk mills? R. F.

A. New Jersey has the most silk mills, but the 1920 census shows that Pennsylvania produced 3.6 per cent of the total value of silk produced in the United States and New Jersey 31.2 per cent.

Q. What did the bicycle policeman of Brooklyn go to get the name "Mile-a-minute-Murphy"? H. W. S.

A. "Mile-a-minute-Murphy" was a member of the Motorcycle Corps in Brooklyn, who was so named because he was paced by a railroad train, riding a mile in 60 seconds.

Q. Is there anything to put on tools that will keep the rust off? W. B.

A. Dissolve 1/4 oz. of camphor in 1 lb. of melted lard; remove scum; add enough fine black lead (graphite) to give an iron color. Clean the tools and smear with this mixture. After 24 hours rub with soft linen cloth. In ordinary circumstances the tools will not rust for months.

Q. Why does a snake after it is killed, wiggle till the sun goes down? F. H. C.

A. The Biological Survey says that in lower animals such as the snake and the frog, the spinal cord is of more importance than the spinal cords in the higher orders of animal life, since in the former it influences the body motions more than the brain does. It is because of this fact that the heart of the snake will continue to beat after the head is severed from the body. In fact there have been cases when the snake was kept in a cool moist place that the heart was found to be beating 24 hours after the head had been severed from the body. On the other hand, if the snake were to be left in the hot sun, the heart would stop beating within a few minutes.

Q. Should a man playing golf alone, allow other players to pass him? Q. F. D.

A. The United States Golf Association rules provide that "a single player has no standing and shall always give way to a match of any kind."

Q. Where is tigerwood found? D. S.

A. There is a wood found in British Guiana, richly striped with black and brown, which is given the name tigerwood. In Guiana it is called itaka-wood.

Q. Where was Goliath, the giant, born? M. W.

A. Goliath was born in Gath—one of the five confederate cities of the Philistines.

Q. What is meant by the expression "Paddy's hurricane"? J. W. M.

A. When there is no breeze and a

If you want a little light

on the financial question you've struck the right place when you walk in this store.

For if there is anything we are light on it's price—especially so on the light weight wearables to keep you cool.

Here they are—read them and then pound your fist down on your desk and say—"I've held off long enough."

pennant hangs against the mast, it is said that Paddy's hurricane is blowing, or that the wind is up and down the mast.

Q. Where is Haddon Hall? L. R. W.
A. The original Haddon Hall is 2 miles southeast of Bakewell, Derbyshire, England. It belongs to the Dukes of Rutland and is a notable example of the medieval residence of a great English proprietor.

Q. How much mineral water is sold in this country? M. T.
A. In 1920, 40,000,000 gallons of mineral water, valued at \$5,000,000, were sold in the United States.

Q. What will remove mercury from old mirrors? N. E. S.

A. The Bureau of Standards says nitric acid should be used to remove the old mercury from old mirrors only if they were made in the days when tin amalgam was used. For the more modern mirrors, they suggest that you try one of the reducing solutions used

in photography, such as a solution of "hypo" and potassium ferricyanide (red prussiate of potash).

Q. What part of animal is the sweetbread? J. A. O.

A. Sweetbread is the name of the thymus or pancreas of an animal (especially a calf) used for food. The former being the throat sweetbread or neck sweetbread, the latter the stomach sweetbread.

Q. What is the significance of the prefix du and de in French surnames and of Van in Dutch surnames? F. T. H.

A. The prefixes du, de and Van are the equivalent of the English preposition of.

Q. How did hansom cabs get their names? K. M. K.

A. These vehicles were so named from being the inventor, Joseph Hansom, an architect at Birmingham and Hinckley, England.

LOCKJAW SETS IN
WHEN YOUTH STEPS
ON A RUSTY NAIL

Carl Martzahl Seriously Ill at
Hospital Here—Church
Picnic.

Kaukauna.—As a result of stepping on a rusty nail while at play ten days ago, Carl Martzahl, 9-year-old son of Mrs. August Martzahl of Plankton, is seriously ill with lockjaw at St. Elizabeth hospital.

Symptoms of lockjaw set in Tuesday morning and the boy was hurried to the hospital Tuesday night. Hopes of keeping the lad alive until a change comes for the better are entertained. The patient is being fed on liquids by means of a tube. Not only are the muscles of his jaws firmly set but the muscles of his limbs are also affected and refuse to relax.

Sunday School Picnic.
Children and parents of the Reformed church Sunday school, numbering about one hundred twenty-five, participated in a picnic at Brighton beach Wednesday afternoon. The party left on the 1:15 car and returned in the evening. The afternoon was spent in contests, games and balling.

Plan Church Picnic.
Members of the Ladies Aid society of the Evangelical Lutheran church are making plans for a picnic which will be held next Wednesday afternoon at Lutheran park. Family supper will be served at 5:30, each family bringing its basket and delivering them to the ladies who will spread the meal. Music will be furnished by the church orchestra and games and other pastimes will occupy the evening. The choir of the church is also planning a picnic to be held in Lutheran park Monday evening.

Kaukauna Personals
Kenneth King of Fond du Lac, is visiting his grandparents, Mr. and Mrs. J. Mertens.

Misses Ruby Ellen and Mabel Anderson, nurses at Mendota, are visiting their parents here.

Howard Patterson is spending his ten days' vacation at Wisconsin Rapids.

H. Ralph of Minneapolis is spending the week with his parents, Mr. and Mrs. John Ralph of South Kaukauna. He made the trip here by auto.

Mrs. Elsie Smith of Milwaukee is visiting this week with her mother, Mrs. Charles Hartzheim of the south side.

Steve Callahan who was injured in an auto accident about a month ago is improving slowly and is able to be about on crutches.

Mr. and Mrs. L. Kittell, Mr. and Mrs. F. T. Cooper and Mrs. Kate Parton have enjoyed a week's outing with friends at Otawana beach on Lake Winnebago.

Mrs. Harry Smith of Dodge-st. submitted to an operation for the removal of her tonsils Wednesday morning.

Charles Dietrich is seriously ill at his home on Second-st.

Abe Levine has sold his residence on Third-st. to John Conner, city assessor, and will move to Chicago where he intends to engage in business.

Miss Edna Deno is visiting at the Henry Abitz home in Neenah. She is accompanied by her cousin Iva of the town of Harrison, Calumet-co.

Mrs. Kate Parton and a party of friends motored to the cherry orchards at Sturgeon Bay last Sunday.

Joseph Belanger and son Earl autowed here from Oconto Falls and Miss Lucille Belanger who has been visiting here returned home with them Wednesday. They were accompanied by Miss Lorraine Zink who will visit with them in Oconto Falls for a few days.

O. A. Look, proprietor of the Kaukauna Drug company, has finished moving his business into its new location at the corner of Third and Main-sts. in the building formerly occupied by the Verfruth shoe store.

Mr. and Mrs. Fred Konrad and Mrs. L. J. Meyer and daughters Lucille and Edith autowed to Cicero early in the week and visited with the H. W. Helms family.

Mrs. John F. Dolan of the town of Kaukauna was taken to St. Elizabeth hospital at 1:20 Wednesday morning and immediately submitted to an operation for appendicitis and tumor.

KAUKAUNA PIGEONS ENTER LONG RACE
Attorney J. W. Lefevre Enters Birds in 600-Mile Contest. Aged Man Dies.

Kaukauna.—Three pigeons owned by Attorney J. W. Lefevre will participate in a 600-mile flight Saturday, when they will be released at Walnut Ridge, Ark., and will return to their lofts at Green Bay. This is the longest pigeon flight staged by the Green Bay Pigeon club during the last ten years, according to Mr. Lefevre, who is president of the club.

About fifty pigeons owned by the various members of the club will take part in the flight. The birds were shipped Wednesday by express from their lofts at Green Bay to the start at Walnut Ridge. If weather conditions are favorable, they will be released at 4:45 Saturday morning and are expected to be back in Green Bay about 6 o'clock Saturday evening.

The three pigeons which Mr. Lefevre has entered in the race participated in a 500-mile flight on July 7, when they flew from Ironton, Mo., to Green Bay. The birds were started on the journey at 4:45 in the morning and reached Green Bay at 3:45 in the afternoon. Their flying time was 11 hours and 1 minute and the birds traveled at a rate slightly faster than 45 miles per hour.

The 500-mile race from Ironton, Mo., and a 300-mile race earlier in the season were won by pigeons owned by Arthur Lardanois of Green Bay. Members of the club who believe their birds are the swiftest, challenged the other pigeon owners to Saturday's race and the distance was made 600 miles so that there would be no question about the winner. Mr. Lefevre points out that under present weather conditions, the flight is a most severe one and will test the endurance of the birds to the utmost. However, the birds will travel in a high strata of air and will escape some of the extreme heat should no change of temperature occur before the race.

The three pigeons entered by Mr. Lefevre have won one first prize, two second prizes, one third prize and one fourth prize in this season's races and none of his birds have ever placed outside of the first ten. A satisfactory pool will be taken by the winner of Saturday's race and Mr. Lefevre trusts that his birds will carry off the honors.

Death of John Hitting, Sr.
John Hitting, Sr., father of Officer John Hitting of the Kaukauna police force, died Tuesday morning at Stanley, Wis., where he had been making his home with his sons.

Mr. Hitting had made his home in Kaukauna and vicinity for 50 years and was 91 years old. He was born in Holland and came direct to Kaukauna after arriving in this country. Part of the time he made his home at Dundas, not far from Kaukauna. His wife preceded him in death 33 years ago.

Up until two years ago, Mr. Hitting made his home with his son, John, in Kaukauna, and then he moved to Stanley, where four of his sons are located. The seven sons who survive him are John of Kaukauna, Frank, Peter, Henry and Antoine of Stanley, Joseph of Hastings, Neb., and Barney of Dundas.

The body was brought to Kaukauna Wednesday afternoon and the funeral was held at 9 o'clock Thursday morning at the St. Francis church in Hollandtown. Burial was in the parish cemetery.

Card of Thanks.
I wish to extend my heartfelt thanks to my many friends and neighbors for their unselfish kindness and assistance during the sickness and death of my beloved husband.

C. OF C. TO TAKE PART IN NATIONAL STUDY OF SCHOOLS

Business Men Are Urged to Promote Efficiency in Public School Systems.

Attention of members of Appleton Chamber of Commerce has been directed to local public school affairs by a pamphlet received from the bureau of education of the Chamber of Commerce of the United States. Business men everywhere are called upon to aid actively in bringing local schools to a high plane of efficiency.

Four pamphlets dealing with various phases of public schools are to be issued with the idea of stimulating the interest of American business men in school matters. These will deal with buildings and equipment, health and physical education, the teacher, laws and administration. Question blanks will be sent with the pamphlet to aid locally appointed committees in assembling and tabulating information. School data thus gathered by the national chamber will be disseminated to 1,400 commercial organizations so one city may compare its situation with others.

Members of the chamber are informed in the pamphlet just received that the future welfare of American business and the efficiency of the American public school are bound together, and that American business will suffer as long as ignorance prevails.

Some of the interesting facts about American schools contained in the pamphlet are:

Out of every hundred pupils who enter public schools, only fifteen get through high school and fewer than three finish college.

More than five million persons, three million of whom are native born over ten years of age, can neither read nor write the simplest words.

It is estimated that four times that number cannot read a newspaper or write a letter.

Literacy is costing the United States \$825,000,000 annually, through accidents and inefficiency.

There are more than thirteen million foreign born in the United States today, five million of whom cannot read or write the English language and two million of whom are illiterate.

At least 40 per cent of our elementary school classes are so large that the individual child cannot be given necessary care and personal instruction.

The average child enrolled in the public schools attends 120 days during the school term, or about three-fourths of the time. Absence costs the United States \$195,000,000 annually.

About 125 teachers, out of a total of 650,000, leave the profession annually and their places are filled by inexperienced people.

The percentage of men teachers in the United States has fallen from forty-three per cent in 1880 to twenty per cent in 1916, and sixteen per cent in 1918.

The public schools of the United States cost about \$760,000,000.

PRINTERY MOVES SECOND TIME IN FORTY YEARS

Chris Roemer estate, former publishers of Appleton Wecker, which purchased the building immediately north of the Post-Crescent building owned by George Walters Brewing Co., is remodeling the structure which will be ready for occupancy by August 1. The office and press room will be located on first floor and composing room and stock room on second floor. The printing office has occupied its present quarters over J. C. Ryan's are store on Oneida-st., for 33 years. The Appleton Wecker first saw the light of day 40 years ago and at that time it was published in the second story of a small frame building located where the Y. M. C. A. now stands, the first floor of which was occupied by William Wenzel's plumbing shop. During the early part of the war the Wecker was sold to the Excelsior Publishing Co. of Milwaukee, which still publishes it.

REALTY TRANSFERS

Real estate transfers recorded with the register of deeds Tuesday afternoon were John P. Gengler to Joseph Gengler, 80 acres in Center, consideration, private; Martin Weyenberg to George Wosters, lots in Vandenberg, consideration, private; Joseph Gengler to John F. Krum, 80 acres in Center, consideration, private.

SOCIALIST BELIEF BASICALLY WRONG

Dr. Plantz Tells Green Bay Kiwanians Why Socialism Cannot Succeed.

Dr. Samuel Plantz, president of Lawrence college, was the speaker at the noonday meeting of the Green Bay Kiwanis club Monday in Beaumont hotel. He took up the subject of Socialism, telling why it is basically wrong and has no opportunity for success.

Socialism had its inception in Wisconsin, Dr. Plantz said, when a tract of land was secured by exponents of Socialist doctrines, on the present site

YOU ARE INVITED!

of Ripon. Here a large number lived amenable for a short time but dissension soon developed and the colony was broken up.

"The Socialist has too optimistic a view of human nature," declared the speaker. "He believes all the evil in man is occasioned by a bad economic condition and that Socialism will remedy all evils. Such is not the case. There are too many varieties of human nature, too much avarice and greed and too much variety in ability for Socialism's success."

"One of the deepest instincts in man is self assertion. He will not tolerate a suppression of his personality or have it merged with countless others in the state. Socialism cannot give large slices to everybody for the simple reason there is not enough to go around. Individual ambition and special talent are not rewarded by Socialism and both therefore are discouraged."

Dr. Plantz said in conclusion that Russia under Red rule furnished a convincing argument against Socialism. "With the waste of her economic resources, the destruction of her religion, Russia stands boldly out as a terrible example of the attempt to work out Socialistic doctrines," he said.

Catch Huge Turtle
One of the largest mud turtles seen in this locality for some time was captured by Schroeder brothers, town of Center, in Duck creek. The turtle's shell measures 22 1/2 inches across, almost as big as the bottom of a bathtub. The turtle was taken to the Schroeder farm, where it draws the attention of many spectators as it swims around in a water tank.

Dress Cool

and you'll be cool!

White shirts with white collar attached or separate, not only look cool but are cool.

A narrow black knitted four-in-hand, or black silk bow, or a plain white four-in-hand are proper fixings. We have an ample supply of shirts and ties.

Let us help you to cooler dress.

NOTICE!

(Information to the Public in general)

Whereas we have been continuously probed with questions concerning the controversy between the carpenters and Association contractors, we wish to inform the public that the scale of wages of building crafts for this year already settled is as follows: Plumbers, \$1.00 per hour. Tinner, 75c per hour. Painters, 75c per hour. Shop Carpenters, 60c to 75c per hour. Masons settled as far as wages are concerned, \$1.00 per hour. Now is 80c per hour too much for outside carpenters who furnish their own tools and considering lost time throughout the year?

If you want carpenter work done, Telephone 1551 or 2081. All our carpenters are covered by compensation insurance. We will supply you with competent carpenters at 85c per hour.

Local Committee of Carpenters No. 953.

GEENEN COMPANY CLOSES PART OF DOWNTOWN ALLEY

Three Institutions Cut Off From Rear Exit—Await City's Action.

Another complication was added to the "Sherman house alley" imbroglio Wednesday when the Geenen Dry-goods Co. fenced off its portion and put up a gate that will be kept locked and used only for their own use. Comerford & Clark, who own the east entrance to the alley have had their gate locked for several months. The

YOU ARE INVITED!

new fence and gate places the properties of W. O. Thiede and A. M. Spruth, the latter occupied by A. L. Kiss in a pocket without a rear exit. The Central Motor Car Co. has also been placed in a similar position.

Matters will be complicated still further within the next few days when John Conway extends the line fence built by the Geenen Dry-goods Co. west to the tower of his water tank. This will practically close the west entrance to the alley as 75 per cent of the traffic now uses his private entrance on Washington st. immediately east of his hotel.

Had Offered Property.
In speaking of the action taken by her company, Miss Minnie Geenen said it had offered to donate the required land for an alley provided the city would pave the alley but that it had seen fit to take no action in the matter. The company now proposes to convert the land to its own use exclusively.

John Conway is one of the few abutting property owners that is not worrying over the alley situation. So far as he is concerned he said he does not need the alley and did not take seriously the proposed plan of the city to condemn eight feet of his hotel in order to widen the alley. "The expense of taking eight feet on each side of the center line of the present alley," he said, "would be so great that I did not think the council would seriously consider the matter."

A. Wilton of the Central Motor Car Co. the rear entrance to whose garage has just been cut off by the new line fence, said he did not know how he would solve his present difficulty, but that he will be greatly handicapped if he has to handle all his bus-

ALMOST READY FOR SAENGERFEST HERE

The platform and stands for the saengerfest at Pierce park, next Sunday will be erected Thursday. The platform for the band will be the one used by the city at park concerts. A meeting of the general committee will be held at Eggert hotel Thursday evening at which final arrangements will be completed. The saengerfest will open Saturday morning and the greater part of the first day will be devoted to receiving visitors. A business session will be held late in the afternoon and will be followed by an entertainment in the evening. Capt. George Merkel, marshal of the day, will announce the parade formation the next day or two.

ness through the front entrance.

Report Withheld.
The commissioners appointed several months ago by Judge E. V. Werner to assess the benefits and damages to property owners have completed their report, but it has not yet been filed with the clerk of the circuit court. Because of the expense that would be involved, it is understood the common council now proposes to run the alley on the south side of the center line of the block, with the exception of two feet, which would leave the Sherman house and Comerford & Clark property intact. It would, however, require several feet of the Albion block, several feet of a one story building belonging to the Geenen Dry-goods Co., and also several feet of the Woolworth building and frame structure on Oneida st. occupied by F. X. Bachmann.

Mrs. Helen Dean of 790 Franklin st. is spending a month at Olen and Buffalo N. Y.

UNEMPLOYMENT IS STOPPING BUILDING

Master Builders Consider Plans for Holding Valley Picnic.

Preliminary steps were taken at a meeting of the Master Builders association Tuesday evening for holding a joint picnic by all the Master Builder associations and their families of Fox river valley. In all probability it will be held at Pierce park, but the date has not been determined. It is the intention of members to make the occasion one of the old fashioned kind, where families can take their lunch baskets with them and spend the entire day.

It developed at the meeting that the building of quite a number of residences is being held up by the labor situation. Workmen who were contemplating buildings and had purchased their lots are not assured of permanent employment in the mills and hesitate investing their surplus funds with conditions as they are.

The meeting was well attended and members expressed themselves as well pleased with their open shop policy. They have all the men they can employ and have applications daily. The danger of heat prostrations in many instances has been eliminated by the men commencing their day's work shortly after sunrise and quitting early in the afternoon, thus avoiding the hottest part of the day.

George F. Werner, executive secretary of the Y. M. C. A., went to Chicago Wednesday to attend a convention which has to do with the management and maintenance of Y. M. C. A. cafeterias.

Friction—the Pickpocket of Industry

IF the loss to industry through unnecessary friction could be entirely eliminated, it would mean a saving of sufficient money to pay off the combined state debt of Illinois, Indiana, North Dakota, South Dakota, Iowa, Missouri and Kansas in a single year.

—(Moody's Manual)

It would represent twice the value of all the vessels produced in the United States in a normal year, and would be greater in value than the annual rye, barley, or rice crop.

—(Statistical Abstract of U. S.)

The value of power lost to industry through friction has been estimated to reach the staggering total of \$185,000,000 annually.

—(Industrial Oil Engineering)

Realizing that friction is an undesirable partner of industry, and feeling its obligation as the leader among manufacturers of lubricants, the Standard Oil Company (Indiana) has for years maintained a staff of lubricating engineers and lubricating chemists, whose business it has been to consult with industrial engineers to solve for them their individual lubricating problems as they are presented.

The services of these men are given without charge, and the saving effected has been great.

When it is realized that every machine presents a friction problem, and that every industry, from cotton goods to corn flakes is dependent on proper lubrication for turning out its product efficiently, one function of the Standard Oil Company (Indiana) becomes more apparent.

11 BANKS OF COUNTY ARE ON HONOR ROLL

Eleven Outagamie-co. banks were listed in the latest honor roll issued by Marshall Cousins, Madison, state commissioner of banking for having a negligible amount of overdrafts. Kimberly State bank, Kimberly, received special mention for having appeared on four honor rolls and for having no overdrafts at all when the present list was compiled.

The other ten banks had less than one-tenth of one per cent of overdrafts. Credit is given the banks for this condition as part of a movement to induce banks to refrain from letting their customers abuse their accounts in this way. Banks thus honored are: Appleton State bank, Freedom State bank, Greenville State bank, Bank of Hortonville, Bank of Kaukauna, Farmers and Merchants bank, Kaukauna; Farmers State bank, New London; Oneida State bank, Seymour State bank and Bank of Shiocton.

Kidney and Bladder Troubles HAVE TO GO

Glogged up Kidney Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous prescription No. 77 known as Marshroot is not recommended for everything but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bloating irritability with loss of flesh, backache, rheumatism or any other tendency to Bright's Disease, Diabetes or Gravel, for kidney disease in its worst form may be stealing upon you.

Don't wait until tomorrow to begin the use of this wonderful prescription if you have any of the above symptoms. Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfailing certainty.

Never mind the failures of the past if you even suspect that you are subject to kidney disease. Don't lose a single day for Schlitz, Bus Co. and every good druggist has been authorized to return the purchase money on the first two bottles to all who state they have received no benefit.

NERVOUS, IRRITABLE, AILING WOMEN

Mrs. Britten Tells How She Was Restored To Health After Suffering for More Than A Year.

Another Triumph for Lydia E. Pinkham's Vegetable Compound

Dimondale, Mich.—"I had inflammation and a displacement and weakness, and it had been neglected so long that it caused great pain, and this affected my mind and nerves so that I was very irritable. I had severe pains every month, so that I was often obliged to lie in bed for two days at a time. I suffered for more than a year before my friends said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' So I purchased one bottle after another until I had taken ten bottles, then Lydia E. Pinkham's Sanative Wash. I received so much benefit from this treatment that I am now able to do my own work."—Mrs. W.D. BRITTEN, R. No. 2, Dimondale, Mich.

Another Michigan Woman says: "I was bothered for a long time with female troubles and was so nervous I felt almost afraid at times. I also had a pain in my right side and was certainly in a bad way. Lydia E. Pinkham's Vegetable Compound has relieved me of these nervous feelings and pains and I am much better in every way. I don't know just how many bottles I have taken, but I took it for nearly a year and it has done me a world of good."—Mrs. JESSIE GRANGER, R. No. 3, Box 51, Kalamazoo, Michigan.

Good health is a woman's greatest asset. With it she may be the inspiration of her husband, a happy mother, and the life of the home. Without it she suffers agonies herself, household duties are a burden, and her family is made miserable by her condition.

Is it any wonder that these women were nervous and irritable after suffering so long from such deranged conditions? Such ailments act directly upon the nerves, and it has been said that a large percentage of nervous prostration, nervous depression, "the blues," and nervous irritability of women arise from some derangement of the female organism.

If women who are in this condition would only profit by the experience of others and take Lydia E. Pinkham's Vegetable Compound at once, much suffering and unhappiness would be averted, as everyone knows a nervous, irritable, ailing mother makes the home unhappy and her condition irritates both husband and children.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

KAUKAUNA AGAIN SEEKING PITCHER

Reik Deserts Electric City Team to Return to Juneau of Shore League.

Kaukauna is keeping the wires hot in order to secure a pitcher before next Sunday to take the place of Joe Reik to whom the Juneau team has been looking a little better than any other pitcher in the Fox River valley. Reik signed with Juneau early in the week and expects to play with that team the remainder of the season.

It is said that Reik was dissatisfied when the "split season" proposition failed to carry in the local league. Kaukauna proposed to the league that the season be "split" with last Sunday's game but the proposition was frowned upon by the Appleton team and failed to go over. Also it appears that Juneau has been hanging out dirty tidbits for Reik all season and has finally been successful.

Kaukauna has two prospects for Reik's place. One is a pitcher from Racine named with a rubber company in the industrial league. He won 15 games straight for the company last year and his record so interested Detroit that early this season he was invited to the automobile center. When it came to a show down, home looked better to the pitcher than Detroit so he remained with Racine.

Cantwell, formerly of the Wisconsin Illinois league is now hurrying for a Chicago industrial semi-pro team and Kaukauna has him under consideration. It is likely that either of these two will be in the mound when Kaukauna meets Oshkosh on the home diamond next Sunday and his performance at that time will determine whether he will have a chance to oppose Appleton the following Sunday.

Secretary William Johnson has charge of the arrangements that are being made to stage a big "booster" game July 24 when Appleton invades the down river city for the third time this season. Special attractions are being offered and Kaukauna is preparing to entertain the biggest crowd of fans that has attended a game this season.

Johnson believes that Kaukauna has the hardest hitting team in the league and believes that with the help of new blood in the mound the team can climb out of the pit in the last half of the season.

Yanks Eat Out Of His Hand

Dicky Kerr.

Though the highly Yankees should probably be highly respected, there is one member of the lowly White Sox who cannot see it that way at all.

He is "Wee" Dicky Kerr, hurler of the Chicago ball crew.

This diminutive 5 foot 7 moundsman has absolutely failed to consider that the Yankees are fighting for first place in the American league while his team is fighting to keep out of the cellar.

He has stopped forth in his last four contests against Yank slugs and handed them a sweet quarter of trummings.

"Jump" says Dicky—and the Yanks jump. He's had 'em eating out of his hand, and recently they have failed to bite the bit that has been serving them—outs and ins and drops.

Johnson believes that Kaukauna has the hardest hitting team in the league and believes that with the help of new blood in the mound the team can climb out of the pit in the last half of the season.

IMPORTANT GAME IN FACTORY WHEEL

Combined Locks and Kimberly-Clark Teams Will Battle on Saturday.

Kimberly Clark and Combined Locks Paper Co. baseball teams will meet in one of the crucial battles in the industrial league race next Saturday afternoon. Kimberly looks formidable with eight men batting over 300 and with a pitcher who has struck out 103 men so far this season. Poca the hurler has a world of steam and is going great guns.

Combined Locks is leading the league by virtue of its consistent playing. The team contains several valley league stars who are hitting the ball hard and fielding like majors. Interlakes and Northern Boiler works will meet Saturday at Inter lake park. A victory for the boiler makers will put them in the running for the flag.

Two games will be played at Brandt park. The Appleton Woolen mills team will play the Coated Paper Co. and the Valley Iron Works takes on the Fox River Paper Co.

Arrangements were made for a "booster day" probably a week from Saturday at a meeting of the executive committee at the office of G. H. Packard. Officials of the league declare the wheel is deserving the support of baseball fans and they are bidding for larger attendance at the games.

KEARNS AND DEMPSEY ARE GOTHAM RESIDENTS

New York—Jack Dempsey has sworn his allegiance to the west for the last year, he declares. He has a New Yorker, and not a resident of Salt Lake City. His manager, John McKernan, the familiar Jack Kearns is also a citizen of New York and not of Oakland, Calif., according to affidavits filed on Tuesday in the state supreme court. The necessity of declaring their residence here came as part of the defense to a \$100,000 suit brought against the heavyweight champion and his manager by Frank J. Spellman, who says they broke a motion picture contract with him. On the grounds that they were non-residents of New York, Spellman had Dempsey's \$6,300 automobile attached and held.

Johnson believes that Kaukauna has the hardest hitting team in the league and believes that with the help of new blood in the mound the team can climb out of the pit in the last half of the season.

Giants Purchase Coast Leaguer

Bill Cunningham.

Bill Cunningham, outfielder, was recently purchased by the New York Giants, from the Seattle club of the Pacific Coast League.

He has been rated as the best fly chaser in the coast outfit and his stick work has been eyed by many big league scouts.

MRS. DICKINSON LEADS IN HANDICAP TOURNEY

Mrs. Frances Dickinson emerged in first place in the ladies' handicap tournament played by eight contestants at Riverview Country club grounds Tuesday. She finished with 54 strokes.

This was the qualifying round medal play, over a 9-hole course. The semi-finals are to be played this week and the finals on or before July 23. A cup is to be awarded the winner.

Scores were as follows: Miss Virginia Pratt, 74; Miss Eleanor Hewitt, 72; Miss Elizabeth Utz, 64; Mrs. James W. Bergstrom, 64; Mrs. Frances Dickinson, 54; Mrs. George M. Gilbert, 79; Miss Allen Edmonds, 64; Mrs. C. C. Hockley, 64.

KAUKAUNA SHOOTERS MAKE GOOD SCORES

Several good records were made by members of the Kaukauna gun club in the third shoot of the season. First group, Stribley, 76; Men range last Sunday.

Owing to the fact that there was no equality in the number of targets in the various matches it would be hard to say just who the winners were. Results of the trap shoot were as follows:

	Shot at	Broke
Ellworth	50	35
McGregor	50	39
Nordtzel	100	58
Stribley	175	127
F. Helgenberg	50	32
Mrs. Stribley	25	15
K. Stausbury	150	95
A. Knox	75	38
G. Helgenberg	75	37
Harwood	75	46
J. Roberts	75	46
J. Jansen	100	76
J. Hendricks	25	15
Meusel	25	23
Patterson	25	21
Mrs. Knox	25	21

In the jack rabbit shoot results which was held at the Kaukauna, sel. St. Jansen, 77; Heinz, 58; Hendricks, 57. Second group, Stausbury, 53; Ellworth, 86; Roberts, 64; Mrs. Stribley, 58; G. Helgenberg, 62. Third group, F. Helgenberg, 72; Harwood, 88; Patterson, 13; McGregor, 54.

Watching The Scoreboard

Yesterday's hero, Earl Smith, the battling Giant catcher. He hit a homer with the bases full, helping to down the Cardinals 9 to 4.

Jack Graney's pinch hit in the ninth inning gave the Indians a 4 to 3 victory over the Red Sox. Mails' hand was hurt by a thrown ball.

Gharrit's home run with two on bases enabled the Senators to beat the White Sox 10 to 2.

Consecutive homers by Kilduff and Griffith with two singles and a triple resulted in five runs and the Robins beat the Reds 5 to 2.

Parks, university of Michigan pitcher, hurled seven innings and held the Athletics to five hits, the Tigers winning 11 to 5.

getting started and were in no condition. Since then they have played a number of games and expect to make the Press-Gazette tribe step out.

Sternard will do the hurrying for the Appleton gang with McQuillan on the hill for the Press-Gazette. Arthur Hillgenberg, formerly of Appleton, is scheduled to work behind the bat for the invaders. The game will be started at 9 o'clock.

Faster Than Collins

Stanley Harris.

At last a man has appeared on the horizon of baseball who is faster than the great Eddie Collins in executing double plays around second base.

He is Stanley Harris of the Washington Americans.

Harris has the knack of handling balls from all angles and snapping them on to first base to complete the play a step ahead of the runner.

Collins has held that speed honor for a long time, but after 15 years major league service, has slowed up some.

Harris is conceded by many to be as fast in negotiating double plays as Collins was in his prime.

Is Uric Acid Making You Ill?

Have you wondered what is causing you to feel so weak and tired—so "blue" and nervous? It may be uric acid. You have probably eaten too much meat which has filled your blood with uric acid, weakened your kidneys and caused that wearing backache, the headaches, dizziness and other bad feelings. Don't wait for serious trouble. Lighten your diet and use Doan's Kidney Pills. Thousands recommend them. Ask your neighbor!

An Appleton Case
Mrs. W. H. Kramer, 615 Hancock st., says: "I suffered from rheumatism, pains and kidney troubles. At times I was lame and had pains in all parts of my body. Headaches and dizzy spells left me unfit for work. I tried different remedies, but nothing did me good until I began using Doan's Kidney Pills. I improved rapidly and finally was better in every way."

LEGAL NOTICES

NOTICE
Notice is hereby given that the Board of Public Works of the City of Appleton, Wisconsin, has daily submitted and filed with the City Clerk, a complete and final report of its decision, determination, and assessment of benefits and damages which would result to each parcel of real estate affected by the changes, improvements and paying ordered to be made by the Common Council of said city of the following mentioned streets to-wit: Harrison street from the south line of Hancock street to the north line of Pacific street, and from the south line of Lawrence street to the north line of Kimball street, Superior street from the south line of Atlantic street to the north line of Pacific street in the Second and Sixth wards of the City of Appleton, together with all objection and evidence taken before said Board to sustain same, proof of publication of the notice required by the Laws of Wisconsin, and the affidavit of the due posting for the notices required by law, which report is on file in the office of the City Clerk, and the Common Council of this city will at a meeting to be held by it at the Council Chambers in this city on the 20th day of July, A. D. 1921, at 7:30 o'clock p. m., consider said report, hear all objections which may be made thereto, determine what portion of the cost of said improvements, if any, shall be paid by the city, and all parties interested may then and there appear and submit any objections they may have to said report or such several assessments.

Dated July 14th, 1921.
E. L. Williams, City Clerk.

STATE OF WISCONSIN—COUNTY COURT
Notice is hereby given that at a regular term of the County Court to be held in and for said County, at the Court House, in the City of Appleton, in said County, on the first Tuesday, (being the sixth day) of September, A. D. 1921, at 10 o'clock a. m., the following matter will be heard and considered:

The application of Mary Haas, administratrix of the estate of Ellen Bley, late of said County, deceased, for the examination and allowance of her final account of the examination and determination of the inheritance tax due from said estate and the assignment of the residue of the estate for said deceased to such person or persons as she may designate.

Dated July 14th, 1921.
E. L. Williams, City Clerk.

NOTICE TO CONTRACTORS
Notice is hereby given, that sealed bids and proposals will be received by the Village of Kimberly, Outagamie County, Wisconsin, and its Village Board, up to 6 o'clock in the afternoon of the 27th day of July, A. D. 1921, at the office of the Village Clerk, in the Village Hall, in said Village, for the full and complete building, construction and completion of the sidewalk to be erected by said Village of Kimberly along and upon the outer and west side of the Kimberly-Vandenbroek Bridge, crossing Fox River, located in said Village of Kimberly and Town of Vandenbroek, in Outagamie County, Wisconsin, and furnishing and providing all labor and materials necessary and required for so doing, according to and in full conformity with the plans and specifications prepared and adopted hereof and now on file in the office of the Village Clerk of said Village, and required for the execution and completion of the contract and the bond securing performance thereof attached to said plans and specifications, which the successful bidder and contractor will be required to execute and enter into with said Village for the construction and completion of said sidewalk.

The right is hereby reserved by said Village and its Village Board to reject any and all of said bids and proposals. Dated, at Kimberly, Outagamie County, Wis., this 11th day of July, A. D. 1921.

H. W. LANGENBERG,
Village Clerk of the Village of Kimberly, Wisconsin.

C. G. CANNON, Village Attorney, Appleton, Wis.
